

NERVORVM DELINEATIO, QVAE SEPTEM PARIVM NERVORVM QVI A CEREBRO ET DORSALIS MEDULLAE INITIO PRONASCENTIVR, ORTVS PRODONIT, ET DISTRIBUTIONEM SERIENS omnium que a dorsali medulla in dorso complexa originem ducunt, pulcherrime refert, uti huius figure characterum Index docebit.

**PRÆSENTI** figura cerebrum una cum cerebello cerebri et cerebelli cum in motum delinuntur, quod a calvaria enu-  
datur in ipsius sustinere consistere, ut apparet si quis erectus  
caput in posteriora quem maxime flectere, suum retrospici-  
oculos advertere. Vt vero characterum Index huius charac-  
teris addit, possit figuram ac fidei carere, brachio ac crure deli-  
neamus, præcipue quoniam eadem utriusque sit ratio.  
**A, B, C** Cerebri ex altero latere basi notatur, ac A indicat partem ip-  
sius ad nervorum summum promissum, nonnullisq. mammillarem pro-  
cessum nuncupatum. B vero cerebri partem inferiorem, amplam cal-  
varie summam subentem, qui ad laevam sinu consistit, quo glans cere-  
bri hancem excipiens reponitur. C autem maxime posteriorem cere-  
bri sedem notat.

**D, D** Cerebellum.  
**E** Studet cerebri processus, organo distinctus substantia mens.  
**F** Nervus ulnaris, qui a cerebri sinu oritur.  
**G** Nervus ulnaris, qui a cerebri sinu oritur.  
**H** T unica, in quam ulnaris nervus exolvitur, de genere ve.  
**I** Secundum nervum cerebri par.  
**K, K** Nervus radialis tertij par.  
**L** Cerebri radialis tertij par.  
**M** Quartum par.  
**N** Quinti paris gracillior radix.  
**O** Quinti paris insignior radix.  
**P** Medulla, in quam quintum par in altius organo præcipue  
exolvitur.

**Q, R** Maioris quinti paris radialis præcipue, quorum hæc per ce-  
cum ducitur, foramen, illa vero per alius ipsi proprium.  
**S** Septimum nervum par.  
**T** hic non delineari potuit, uti elegantissime proponuntur secunda  
figura huius libri secundo Capite præposita.

**V** Dorsalis medullæ ex cerebri basi medio initium.  
**O** Dorsalis medullæ sedes, quæ calvariam graditur.
